

About Fatina Dreams

Fatina Dreams is an extraordinary world inspired by a beautiful doll who dreams herself alive to save the planet one dream at a time.

Fatina loves rainy days for dreaming. With these dreams, she fuels girls' imaginations and empowers them to make an important difference in saving the environment and spreading fun and joy.

Her example inspires all girls to imagine new ways to make the world better. Fatina has no fear and asks, "Why throw away your memories?"

Fatina is inspired by the childhood dreams of the award winning artist Prudence Mak.
